Riding, Sarah

The figure consists of two side-by-side line graphs. Both graphs have 'Rate of reaction' on the y-axis and 'Temperature / °C' on the x-axis. The left graph shows a curve that starts at a low rate at 10°C, rises to a peak at 30°C, and then falls at 40°C. The right graph shows a curve that starts at a low rate at 10°C and rises exponentially to a high rate at 40°C.

On the way to the beach, we saw a large number of seals resting on the rocks. They were all looking towards the water, and some were barking at the boats. The seals were of various sizes, from small pups to large adults. They were all very curious and seemed to be waiting for something to happen.
